Recommended Reading:

What is Global Health?

By Robert Beaglehole, & Ruth Bonita

Sample PhD Review Article:

Striving against diversity: the dynamics of migration, health and poverty in rural South Africa, by Mark A. Collinson;
Commentary by Peter Kim Streatfield

* Both published in the 2010 Volume of *Global Health Action* under 'PhD Reviews'.

Kick Start your publishing career!

Have you recently defended your PhD on a global health topic? Submit a synthesis of your thesis work to the *Global Health Action* **PhD Reviews** series and begin building your independent publications list.

PhD Reviews will be subjected to regular peer review. Accepted articles will be published alongside an invited *Commentary* from the opponent or examiner of the original thesis.
